Gwendy Joysen

THE WHOLE PACKAGE

As a Performing Artist, Gwendy Joysen is focused on 3 goals - diversity, entertainment & elevation. All of which, she seamlessly accomplishes through pure self expression. More than just an amazing singer, her guitar work & physical expression on stage as well as her intense connection with the music & musicians, allow her to deliver a show with powerful punch. In her left of center, soul-gripping performances she takes us on a journey from groove to ballad to rocker, bringing together a variety of styles in a refreshingly unique way, while holding you close with subtle familiarity; All the while, leaving her audience energized & inspired.

A vocalist beyond category who delivers her powerful lyrics with heart-stopping vocals, Gwendy has shared the stage with numerous, talented artists and speakers. In February 2008 Gwendy opens for the amazing Patty Larkin at The Aalto in Colorado. Recently, Gwendy performed for an Oprah Winfrey producer, and she opened for 2 recurring Oprah Winfrey-guests and Book Club favs, NY Times Best Selling Author Gary Zukav while in KC, MO, and NY Times Best Selling Author Marianne Williamson in Los Angeles, CA.

During her career, she has sung with greats like Rosemary Butler (long time background vocalist for James Taylor), and Grammy Award winning saxophone player Jeff Coffin, who also appears on Joysen's debut CD, "...and miles to go." Rich Aspinwall, who has worked with countless acts such as Garth Brooks, Indigo Girls, & Emmy Lou Harris, took a special interest in Gwendy's talents early on, producing cuts on two of her CDs. Aspinwall also provided his remarkable mixing talents on her upcoming CD release "Love Is Stronger."

No stranger to the road or the industry, Gwendy began performing as a teenager, playing mostly acoustic sets and later shifting into alternative pop-rock. Her songwriting started even earlier, at the tender age of nine. She started doing professional studio vocals in her late teens in Nashville, and has performed frequently at hot spots like The Exit/In, The Bluebird Cafe and 12th & Porter. She independently made her way across the country in coffee houses, clubs and house parties.

Gwendy Joysen has mastered her craft and has now become a seasoned force of musical nature. Taking on the scene like never before, Gwendy is currently booking an extensive US tour to support her new release.
